

Post-doctoral research fellow position in HIV Immunology

A post-doc position is available in the laboratory of Dr Mohammad-Ali Jenabian, the holder of the Canada research chair in Immuno-Virology, at the Department of Biological Sciences, University of Quebec at Montreal (UQAM), to work on a CIHR-funded research project on the role of regulatory T cells (Tregs) during HIV infection.

Qualifications :

- PhD degree in immunology, microbiology, biochemistry or a related field.
- Strong interest in working with human specimens and HIV.
- Laboratory experience in primary cell culture, molecular biology, flow cytometry and immunology.
- Significant scientific contributions and excellent communication skills in English or French are required.

Relevant publications :

<http://www.ncbi.nlm.nih.gov/pubmed/?term=jenabian+ma>

Salary : A competitive salary is guaranteed based on the CIHR salary ranks

Date of start: September 2021

How to apply:

Please submit your CV, a cover letter and the names and contact information of three referees in one PDF document to Dr Jenabian (jenabian.mohammad-ali@uqam.ca).

Potential candidates will be contacted for an interview.
